SUMMARY

I am High School student at Valley High School, West Des Moines, Iowa. I started programming when I was 14. In my free time I enjoy programming, wrestling, lifting, and gaming. I love going to Hackathons during the weekends. So far I have been to Hack Mizzou, Wildhacks, and MHacks. I enjoy going to hackathons because they are a great way to learn about software and hardware. My favorite programming language is Javascript.

EXPERIENCE

Intern(Developer), Webspec Design

Des Moines, IA — May 2014 - June 2015

As a Developer at Webspec Design My job was to create websites using HTML5, Javascript, and CSS. Along side making websites I had to keep them up to date with updates to their wordpress, and small changes that clients requested.

Accomplishments

- Learned how to work closely with other developers, designers, and project managers.
- Became much more advanced with PHP and Javascript.
- Learned about responsive websites and SEO.
- Learned to work closely with Git.

Cashier/Server, Mcdonalds

Des Moines, IA — October, 2013 To March, 2014

My job as a cashier/server at Mcdonalds was to operate the cash register, and make/serve food to customers.

Accomplishments

- Handle Cash Register
- Cook and serve
- Learned to work closely with a team

EDUCATION

Valley High School

Diploma — 2014-Current

I am studying at Valley High School, I take classes that I find interesting, like AP Computer Science, and Intro to Programming with Logic.

SKILLS

Advanced:
