SUMMARY

My name is Rohit Sehgal, I am a sophomore at Valley High School, in Des Moines, IA. I like programming, wrestling, lifting, and gaming in my freetime. My favorite thing to do on the weekends is go to hackathons. I like hackathons because they are a great way to learn about software and hardware. My favorite language to program in is Javascript, and my least favorite is Java.

EXPERIENCE

Developer, Webspec Design

Des Moines, IA — 2014-Current

My job at Webspec Design was to take photoshop files, made by our designers, and code them out in to websites. Then if the customer wanted we would use PHP to convert the static HTML sites in to Wordpress themes, so the customer could update the site as if it were a blog.

Accomplishments

- Learn to use many web APIs
- Learn how to write proper HTML
- Learn how to use SASS (language that compiles into CSS)
- Learn to Write proper Javascript
- Learn how to work closely with designers while developing, and working with customers to keep them updated on current progress.

Cashier/Server, Mcdonalds

Des Moines, IA — 2013-2014

My job as a cashier/server at Mcdonalds was to operate the cash register, and make/serve food to customers.

Accomplishments

- Learning how to use the cash register
- Learning how to make small food items like shakes and pies

EDUCATION

Valley High School

Diploma — 2018

I studied at Valley High School, taking many computer science classes, like AP Computer Science, and Web Design II.

SKILLS

Advanced:

HTML, CSS, SASS, Javascript, Photoshop
